Is Your Diesel Powered Equipment Suffering From These “Typical” Operating Conditions?

Hard Engine Starting White Smoke After Engine Start Rough Idling When Cold		Indicates “ Poor ” <u>Fuel Combustibility</u>
Black Exhaust Smoke Soot Deposits on Exhaust Pipe Fuel System Buildup of Deposits		Signs of “ Poor ” <u>Fuel Stability</u>
Excessive Fuel Pump Replacements Unscheduled Fuel Injector Replacements Fuel Injector Chatter (Noise)		Signifies “ Poor ” <u>Fuel Lubricity</u>
EGR & DPF Reg Valve Replacements Common Rail Fuel Injector Failures Combustion Chamber Deposits		Signifies “ Poor ” <u>Fuel Detergency</u>
More Downshifting Under Load Frequent Low Power Driver Complaints Less Than Expected Fuel Economy (MPG)		Denotes “ Poor ” <u>Fuel Quality</u>

Solution: *Amalgamated, Inc can fix all of the above items with the ‘right’ diesel fuel additives custom formulated to ‘your’ specific needs.*

Give us 30 days to show you the proof at no cost to you – “Guaranteed”. Call us at 260-489-2549 for complete details or visit our web site to request a contact from us at www.amalgamatedinc.com. You have absolutely nothing to lose!
